UST Angelicum College

HIGHER EDUCATION

HIGHER EDUCATION DEPARTMENT

The Higher Education Department provides workforce and entrepreneurship - directed education as it grants full degree programs that prepare individuals for corporate careers and enterprise start-ups in the areas of communication, coding, in the creation of products and services, and in the caring of human capital.

THE PROGRAMS IN THE HIGHER EDUCATION DEPARTMENT

BACHELOR OF SCIENCE IN ENTREPRENEURSHIP (BS ENTREP)

The Bachelor of Science in Entrepreneurship program prepares graduates to begin and grow their new or existing business through a deep grounding and well-rounded exposure on the concepts and practices of ideation, production and development, marketing, accounting and finance principles.

BS INFORMATION TECHNOLOGY (BSIT)

The Bachelor of Science in Information Technology program is an interdisciplinary program with emphasis on data analysis and programming providing pathways for students who want to pursue careers by solving complex business problems and creating new opportunities using information technology resources.

BACHELOR OF ARTS IN COMMUNICATION (BA COMM)

The Bachelor of Arts in Communication program provides excellent training to careers in Quad-Media - Television, Radio, Print, and the Internet. It molds young minds to be responsible and value-laden content creators, and competent future communication professionals and practitioners.

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION MAJOR IN HUMAN RESOURCE MANAGEMENT (BSBA HRM)

The BSBA Major in Human Resource Management is a business management specialization that emphasizes the study of labor law and relations, employee recruitment and development processes, organizational communication and other business disciplines that relates to leading and caring for an organization's human capital resources.
